

## Wellevate

To help you achieve your optimum wellness, supplements will be reviewed between you and a provider at Centered on Wellness. We have partnered up with an online dispensary called Wellevate to make ordering and replenishing your supplements simple and easy. You will have access to the highest quality products and together we will ultimately help improve your ability to follow recommended protocol and reach your wellness goals. You have two options in setting up your Wellevate account, a staff member can create an account for you, using your email and password, or you can create your own account following the instructions listed below.

Please provide us with the following information for a staff member to set up your Wellevate account:

Email (username): \_\_\_\_\_

Password: \_\_\_\_\_

Once your account is created you will receive an email with your recommended supplements from your provider. You will be able to order what you chose.

Step 1:

Go to the website <https://wellevate.me/diane-bowen-1>

Step 2:

Enter your email as your username.

Step 3:

Create a password according to the instructions. Write the password down so you will remember it!

Step 4:

Create your account. The website will prompt you to enter your address and say how you prefer to be contacted (by cell phone or email).

Step 5:

Continue to Centered on Wellness homepage. Call 912-638-0034 and tell the staff you have created your account. Once you let us know that you have created your account, we will upload your custom vitamin recommendations and you can click and order and have your supplements shipped to your front door!
